

ENVIRONMENTAL POLICY

Rolawn is the UK's leading turf grower and supplier of Britain's Finest Turf. In addition, Rolawn is renowned for its market leading, high-quality topsoils analysed to British Standard BS3882:2015, and responsibly sourced barks from FSC® approved suppliers (www.fsc.org | FSC-C147081). The Company and its Employees are proud of its reputation for professionalism, reliability and integrity. Rolawn is a responsible producer with concern for the environment forming an integral and fundamental part of its business strategy and operating methods. As such we are committed to implementing environmentally responsible standards and practices as part of our continual environmental improvement.

Certified to BS EN ISO 14001:2015 we are committed to:

- Assessing the environmental impact and risks of all current and future operations to continually improve our environmental performance.
- Identifying and ensuring compliance with all relevant Environmental Legislation and standards of relevance to the industry sectors in which we operate.
- The prevention of pollution and reducing any impacts of our operations on the environment and local community.
- Identifying and reviewing environmental objectives and targets to manage all potentially significant environmental aspects and monitoring the progress of these on a regular basis.
- Investment in technology which underpins our environmental credentials and reduces our environmental impact.
- Responsible sourcing for current and future products and processes, working with our customers and suppliers to improve the environmental activity in our supply chains.
- Monitoring waste production throughout our operations and seeking to Reduce, Reuse and Recycle waste where possible.
- Utilising recycled, reusable and sustainable materials and developing markets for recycled products wherever possible.
- Minimising and reducing the use of natural resources in our operations.
- Operating and maintaining plant and equipment to minimise environmental impact and investing in technology which underpins our environmental credentials and reduces our environmental impact.
- Working to reduce the environmental impact of the distribution of our goods by working with quality hauliers and continuing to ensure that we maximise the available space and weight on vehicles delivering our products.
- Cultivate a culture of open communication to enable employees to suggest improvements to reduce waste across all branches of the company.
- Communicating our environmental policy to all staff and ensuring they understand their important role in minimising environmental impact.
- Ensuring our Environmental Policy is available to interested parties via our website.
